Research statement

I study problems at the intersections of human genetics, statistical inference, quantitative psychology, and applied mathematics. My primary research interests include:

1. Polygenic estimators under nonrandom mating and other forms of population structure
2. Efficient numerical methods for the analysis and simulation of genome-wide data.
3. Metascience, model misspecification, falsifiability, and the identification of spurious findings.

My research is supervised by Noah Zaitlen in the UCLA David Geffen School of Medicine Neurology Department and Sriram Sankararaman in the UCLA Computer Science Department. I also work with the Price Lab at the Harvard T. H. Chan School of Public Health Department of Epidemiology, which I joined as a visiting scientist in 2021.

Presentations

- Wu, Y. and **Border, R.**. “Emerging topics in biobank-scale association analysis.” Co-moderator of platform-talk at the 2022 annual meeting of the *American Society of Human Genetics*.
- **Border, R.**, Athanasiadis, G., Buil Demur, A., Schork, A., Cai, N., Young, A., Werge, T., Kendler, K., Flint, J., Dahl, A., Price, A., Zaitlen, N. (2022). “Quantifying the effects of high-dimensional cross-trait assortative mating on complex trait genetic architectures.” Reviewers’ Choice Abstract poster presented at the 2022 annual meeting of the *American Society of Human Genetics*.
- **Border, R.**, Athanasiadis, G., Buil Demur, A., Schork, A., Werge, T., Kendler, K., Flint, J., Dahl, A., Zaitlen, N. (2021). “Widespread evidence of systematic bias in estimates of genetic correlation due to cross-trait assortative mating.” Plenary talk presented at the 2021 annual meeting of the *American Society of Human Genetics*.
- **Border, R.**, Becker, S. (2019). “Randomized algorithms for genomic variance components estimation in mixed models”. Poster presented at the 2019 *International Workshop on Statistical Genetic Methods for Human Complex Traits*, Boulder, CO.
- **Border, R.**, Johnson, E.C., Evans, L.M., Berley, N., Sullivan, P.F., Keller, M.C. (2018). “Quantitative reconciliation of GWAS and candidate gene findings: measurement error, nonlinearity, and artifactual results.” Paper presentation *accepted* for the 48th meeting of the Behavior Genetics Association in Boston, MA. (Talk delivered by M.C. Keller due to illness)

- **Border, R.**, Johnson, E.C., Berley, N., Medland, S.E., Sullivan, P.F., Keller, M.C. (2018). “Examining the relevance of canonical candidate genes for major depression”. Poster *accepted* for the 48th meeting of the Behavior Genetics Association in Boston, MA.
- Evans, L.M., **Border, R.**, du Pont, A., Friedman, N.P., Johnson, E., Yang, J., Visscher, P., Keller, M.C. (2018). “Exploring the genetic architecture of psychiatric disorders using partitioned heritability approaches.” Symposium presented by Luke Evans at the *World Congress of Psychiatric Genetics*, October 2018, Glasgow, Scotland.
- **Border, R.**, Johnson, E.C., Berley, N., Sullivan, P.F., Keller, M.C. (2017). “Discrepancies between candidate gene and genome-wide studies of complex traits and endophenotypes.” Poster presented at the 25th annual meeting of the World Congress of Psychiatric Genetics, Orlando, Florida, October 13-17, 2017
- Park, A. L., Tsai, K. H., Guan, K., **Border, R.**, and Chorpita, B. F. (2017). “Unintended consequences of evidence-based treatment policy reform.” In *Use of Evidence in Mental Health Treatment and Clinical Decision-Making*. Symposium held at the 4th Biennial Society for Implementation Research Collaboration Conference, Seattle, WA.
- Johnson, E.C., Melroy-Greif, W.E., **Border, R.**, Keller, M.C., Ehringer, M.A. (2016). “Examining 25 classic schizophrenia candidate genes in the context of GWAS data: evidence for relevance?” Poster presented at the 2016 meeting of the American Society of Human Genetics in Vancouver, British Colombia.
- **Border, R.**, Sawaya, S., Huggett, S., Brown, S.A., Wall, T.L., and Stallings, M.C. (2015). “Sensitivity of random forests algorithm to population stratification in GWAS data.” Poster presented at the 45th annual meeting of the Behavior Genetics Association in San Diego, CA.

Honors and awards

2022	Reviewers' Choice Abstract <i>American Society for Human Genetics</i>
	Random Matrix Theory and Numerical Linear Algebra Conference Travel Award <i>National Science Foundation</i>
2021	Charles J. Epstein Research Semifinalist Award <i>American Society for Human Genetics</i>
	National Institutes of Health Postdoctoral Trainee T32NS048004 <i>Semel Institute for Neuroscience and Human Behavior, University of California, Los Angeles</i>
2020	Dosier Muenzinger Award for Outstanding Contribution to Basic Research <i>Department of Psychology and Neuroscience, University of Colorado Boulder</i>
2016–2019	National Institutes of Health Predoctoral Trainee T32MH016880 <i>Selected by faculty training committee thrice consecutively (maximum number of times awarded to any graduate student), Institute for Behavioral Genetics, University of Colorado Boulder</i>
2018	Behavior Genetics Association Travel Award <i>Behavior Genetics Association</i>
	Departmental Travel Grant <i>Department of Psychology and Neuroscience, University of Colorado Boulder</i>

- 2017 United Government of Graduate Students Individual Travel Award
University of Colorado Boulder Graduate School
- 2015–2019 Predoctoral Fellowship
Institute for Behavioral Genetics, University of Colorado Boulder

Education

- 2019 Doctor of Philosophy
Behavioral, Psychiatric, and Statistical Genetics
Advised by Matthew C. Keller
Department of Psychology and Neuroscience, University of Colorado Boulder
- 2018 Master of Science
Applied Mathematics
Advised by Stephen Becker
Department of Applied Mathematics, University of Colorado Boulder
- Master of Arts
Behavioral, Psychiatric, and Statistical Genetics
Advised by Soo Hyun Rhee
Department of Psychology and Neuroscience, University of Colorado Boulder
- 2011 Bachelor of Arts
Japanese Language and Literature
Advised by Terry Kawashima
Department of East Asian Studies, Wesleyan University

Dissertation and master's thesis

- **Border, R..** “Topics in the quantitative analysis of complex trait genetic architectures”. Psychology and Neuroscience Graduate Theses & Dissertations. scholar.colorado.edu/concern/articles/vd66w090s
- **Border, R..** “Stochastic Lanczos likelihood estimation of genomic variance components”. Applied Mathematics Graduate Theses & Dissertations. 120. scholar.colorado.edu/appm_gradetds/120

Peer review

I have served as a special topic guest editor for *Frontiers in Genetics*. Additionally, I have refereed for the following journals:

- *Alcoholism: Clinical and Experimental Research*
- *American Journal of Medical Genetics Part*
- *American Journal of Psychiatry*
- *Bioscience Reports*
- *BMC Bioinformatics*
- *BMC Psychiatry*

- *eLife*
- *Frontiers in Public Health*
- *Genes, Brain and Behavior*
- *JAMA Psychiatry*
- *Journal of Clinical Medicine*
- *Journal of Psychiatric Research*
- *Molecular Psychiatry*
- *Nature Human Behavior*
- *Psychiatry Research*
- *Psychological Bulletin*
- *Psychoneuroendocrinology*
